In the space below provide a brief summary of the proposed clinical and/or research educational program, including specific objectives:

During the rotation in Halifax the trainee will have the opportunity to participate in the following activities

Clinical

Participate in an observer role in ambulatory care an inpatient environments.

Trainee will participate in general Gastroenterology, inflammatory bowel disease and Hepatology clinics – including pre transplant and hepatitis clinics.

Inpatient experience will include ward rounds, inpatient consults and emergency room coverage. Trainee will take call with the GI attending and GI resident and participate in the assessment of GI emergencies in the ER and ICU.

Education

Attend multidisciplinary and pathology rounds and GI journal club.

Research

We will provide the opportunity to participate in a clinically relevant research topic.

List all mentors who will be involved in the program along with their departmental affiliation, University rank and area(s) of expertise:

D Leddin, Professor Department of Medicine, IBD and colon cancer.

The head of neurosurgery, Dr Ivor Mendez is from Bolivia and he will be available to provide support.
