

Fellowship Opportunity: Inflammatory Bowel Diseases at the Nova Scotia Collaborative IBD Program

Location: QEII Health Sciences Center, Halifax, Nova Scotia

Anticipated Start Date: July 1, 2025

Application Deadline: December 1, 2024

The Nova Scotia Collaborative Inflammatory Bowel Diseases (NSCIBD) Program at the QEII Health Sciences Center is pleased to announce a clinical and research fellowship opportunity in inflammatory bowel diseases (IBD). We invite applications from dedicated and enthusiastic candidates seeking to deepen their expertise in a dynamic, multidisciplinary environment.

Program Highlights: Our fellowship offers a unique blend of clinical care and research, with a focus on integrated multidisciplinary approaches to IBD management. Key strengths of the NSCIBD Program include:

- **Leadership in Integrated Care:** Our team excels in comprehensive disease monitoring and patient-centered, integrated interventions.
- **Complex Case Management:** Fellows will gain invaluable experience in managing complex IBD cases, enhancing their clinical acumen.
- **Clinical Research:** Local research strengths include epidemiological and outcomes research and well as implementation science and quality improvement.
- **Mentorship:** Trainees will benefit from the guidance of our fellowship trained gastroenterologists and IBDologists, including:
 - **Drs. Jennifer Jones; Michael Stewart; Chadwick Williams; Hughie Fraser; Stacey Williams; Sunil Patel**
- **Clinical Research Opportunities:** The program prioritizes research, providing fellows with the chance to engage in innovative studies that advance the field of IBD.

Fellowship Structure:

The fellowship is designed to balance clinical and research responsibilities, with an expected allocation of 50% of time dedicated to each. This structure ensures that fellows receive comprehensive training while contributing to clinically impactful research initiatives.

Qualifications & Prerequisites:

- An MD degree & completion of 2 years of core gastroenterology training
- **Research Experience:** Demonstrated interest and experience in research will be considered an asset.

Additional Faculty Support:

Fellows will also collaborate with a strong network of supporting faculty, including:

- **Drs. Chris Kenyon, Paul Johnson, Katrina Neumann, Tiffany Shepherd, Sam Firth, RD**

Application Process:

Interested applicants should submit the following materials to **Dr. Jennifer Jones** by **December 1, 2024**:

- Curriculum Vitae (CV)
- Cover Letter
- Three Letters of Recommendation (including one from the GI program director)

We look forward to welcoming passionate and motivated individuals to our team at the NSCIBD Program. Join us to enhance your IBD clinical acumen while making a significant impact in the field of inflammatory bowel diseases!
