- ^^ Echoscens has provided a fibroscan machine for dedicated research use for NASH related studies via NIDDK NASH CRN
- * I am a consultant and PI of their ongoing trial-
- ** I am the PI of the Immuron trial for alcoholic hepatitis as part of NIAAA funded TREAT consortium. Immuron will provide drug and no additional funding.
- *** have provided advice but not taken any personal remuneration
- **** they will provide drug and lab costs for a NIAAA sponsored study of a caspase inhibitor for alcoholic hepatitis. I have no personal financial conflict of interest
- Research grants listed above for Salix, Gilead and Exhalenz represent the site budgets for VCU clinical trials involving these companies and do not support me directly.
- ^^^ VCU my university (and I as the VCU inventor) have a joint patent on lipidomic profile of NASH but I have no direct COI with OWL
- VCU has ownership in Sanyal Bio
