

2021 CAG ANNUAL MEMBER NEEDS ASSESSMENT OVERVIEW

The online 2021 Needs Assessment survey was administered through SurveyMonkey and a personalized request to complete the questionnaire was emailed to CAG members in the spring of 2021 with two subsequent reminders.

The 2021 survey posed some provocative organizational development questions on important topics that had not been addressed in previous years such as:

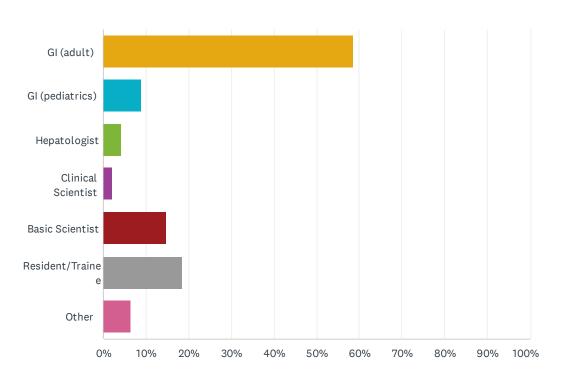

- The CAG's commitment to Diversity and Equity and suggested types of programming to promote diversity and equity in Gastroenterology programming.
- Perception of industry bias in CAG's CPD program content.
- How well is the CAG meeting members CPD needs?
- Suggestions for a revitalized CAG CPD Mission Statement

As of June 3, 2021, a total of **191 respondents** had completed the survey demographic questions, of which **141** went on to rate 34 potential educational topics for Continuing Professional Development (CPD). Respondents were asked to indicate their level of interest for topics on a five-point scale ranging from 'No interest' to 'Very interested'.

Please note that the following results posted in aggregate relate to the Demographics and Continuing Professional Development questions only. A more fulsome article will be published in JCAG In the coming months which will address all sections of the Needs Assessment including the results of the Organizational Development questions.
