## Assistant/Associate Professor

---

Faculty of Medicine – Department of Pediatrics, Division of Pediatric Gastroenterology and Nutrition, Montreal Children’s Hospital (MCH), McGill University Health Center (MUHC)

---

### Position description

The Department of Pediatrics of McGill University seeks applicants in the Division of Pediatric Gastroenterology and Nutrition for a Full-Time academic position at the Assistant or Associate Professor level (commensurate with credentials). The successful candidate will join an expanding division of dedicated Pediatric Gastroenterologists and will support the clinical and academic/educational missions of the Division and Department of Pediatrics.

The Division of Pediatric Gastroenterology and Nutrition is a division with many areas of expertise including Inflammatory Bowel Disease, Pancreatic disease, Liver disease, Intestinal Failure, Nutrition, Aero-digestive disorders, Polyposis syndromes and Celiac disease. There are several inter- and multi-disciplinary clinics and strong collaborations with other divisions within the institution which delivers comprehensive care to patients with complex gastrointestinal, hepatic and pancreatic disorders. The Division provides inpatient consultation to all areas of the hospital as well outpatient consultations. The physicians work closely alongside our clinical nurses and nutritionists dedicated to Pediatric Gastroenterology (GI). The Division also has a state-of-the-art pediatric endoscopy suite providing diagnostic and therapeutic procedures in addition to a wireless capsule endoscopy program. There is also a dedicated pediatric motility suite should the candidate have a particular interest in this area. The Division has an active Royal College Accredited Pediatric GI Fellowship program and is involved in the teaching of medical students, residents as well as programs for continuing professional development. Members of the division are involved in diverse scholarly activities at the hospital and university level as well as nationally and internationally. We are a cohesive team dedicated to clinical excellence, teaching, research and innovation.

The Department of Pediatrics is a leader in academic medicine, our educational and research missions support excellent and innovative clinical programs. The Montreal Children’s Hospital of the McGill University Health Centre is one of McGill’s major teaching hospitals affiliated with the Faculty of Medicine at Canada’s internationally renowned McGill University, located in the vibrant and multicultural city of Montreal, in the province of Quebec. The MCH is a 150-bed hospital with 12- bed Pediatric Intensive Care Unit, plus an 8-bed step down unit, a 52- bed Neonatal Intensive Care unit. All pediatric medical and surgical subspecialties are represented at the MCH.

---

## **Job Duties**

The successful candidate is expected to be an active physician member of the Division of Pediatric Gastroenterology at the Montreal Children's Hospital, MUHC. The candidate is expected to share in on call duties, hold gastroenterology out-patient clinics when not on service, participate in diagnostic and therapeutic endoscopy, attend division meetings and academic rounds and teach medical students, residents and fellows rotating in GI. They will be expected to contribute to the academic mission of the division according to their particular area of interest.

## **Qualifications and Education Requirements**

Candidates must hold an MD degree and must have completed specialty training in General Pediatrics as well as subspecialty training in Pediatric Gastroenterology and Nutrition. Candidates need to be eligible for licensure in Quebec and certified by the College des médecins du Québec. Candidates should have or endeavor to obtain a working knowledge of both English and French.

---

*-McGill University is committed to equity and diversity within its community and values academic rigour and excellence. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to engage productively with diverse communities.*

*At McGill, research that reflects diverse intellectual traditions, methodologies, and modes of dissemination and translation is valued and encouraged. Candidates are invited to demonstrate their research impact both within and across academic disciplines and in other sectors, such as government, communities, or industry.*

*McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate's record.*

*McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through [accommodation policies and procedures](#). Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, this [email](#) or phone at 514-398-2477.*

*All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.*
